

MATHAIOS MATHAIYOU

Computer Science Researcher · AI & LLM Engineer · Erasmus Scholar · Competitive MMA Athlete

+357 97693130 | matheosmat13@gmail.com | Corfu, Greece

PROFESSIONAL SUMMARY

Computer Science researcher and developer at Ionian University, specialising in Artificial Intelligence and Large Language Models. Author of three peer-reviewed publications with a fourth paper currently in submission, covering LLM engineering, retrieval-augmented generation, and AI bias. Selected for Erasmus+ exchange at Universidad de Málaga — achieving Spanish A2 certification in under 2.5 months. Active freelance web developer with a sustained client base since 2024. Competitive MMA athlete with seven years of professional-level training, bringing high-performance discipline, pressure management, and relentless goal pursuit to every technical and collaborative endeavour.

EDUCATION

B.Sc. Computer Science · **Ionian University — Dept. of Informatics** · Corfu, Greece

2024 – Present

- ▶ All examinations passed successfully; research-intensive track with a focus on AI, ML, and distributed systems
- ▶ Active collaborator with faculty on AI research projects resulting in published and forthcoming academic work

Erasmus+ Exchange · **Universidad de Málaga (UMA)** · Málaga, Spain

Feb 2026 – Jul 2026

- ▶ Competitively selected for the Erasmus+ international mobility programme
- ▶ Attained Spanish A2 certification in 2.5 months — a full level ahead of schedule, demonstrating exceptional language acquisition
- ▶ Maintained full research output and client web-development work throughout the exchange
- ▶ Continued competitive MMA and Brazilian Jiu-Jitsu training with local clubs in Málaga

RESEARCH & PUBLICATIONS

Peer-Reviewed Publications

- [1] *Large Language Models for Real-Time Financing Forecasting* — Published
- [2] *Bias in Artificial Intelligence* — Published — Ionian University collaboration
- [3] *A Fully Offline Retrieval-Augmented Generation System for Computer Science Lecture Understanding* — In preparation / submission

Research Projects

- ▶ Co-developing a Large Language Model (LLM) architecture from scratch with faculty supervision — yielding an additional forthcoming publication
- ▶ Erasmus+ WICT Project — completed full Data Science & AI certification cycle; built and validated predictive ML models with an international cross-institutional team on real-world datasets
- ▶ AI in Cancer Research Summer School — applied machine learning methods to biomedical datasets in an intensive research environment

PROFESSIONAL EXPERIENCE

Freelance Web Developer · **Self-Employed** · Remote · Greece & Spain

2024 – Present

- ▶ Design and delivery of full-stack websites and e-commerce platforms for clothing brands, SMEs, and individual clients
- ▶ Front-end development (HTML/CSS/JavaScript/WordPress) with back-end integration and CMS customisation
- ▶ Full project lifecycle ownership: client discovery, technical specification, iterative build, deployment, and post-launch support

- ▶ Sustained active client work remotely during Erasmus+ exchange in Spain — demonstrating self-management and professional reliability

TECHNICAL SKILLS

Languages: Python · C++ · JavaScript · HTML / CSS

Frameworks & Tools: WordPress · React (foundations) · Git · Pandas · Scikit-learn

AI / ML: Large Language Models · RAG Systems · Retrieval Pipelines · Bias Evaluation · Data Analysis

Research: Scientific Writing · Systematic Literature Review · Experimental Design · LaTeX

Professional: Client Management · Technical Documentation · Cross-cultural Collaboration · Remote Work

LANGUAGES

Greek — Native | **Russian** — Native | **English** — Proficient · IGCSE Cambridge | **Spanish** — A2 certified (2.5 months); progressing to B2

ATHLETIC RECORD

- ▶ Mixed Martial Arts (MMA) — Competitor since 2019; professional fight experience; active training in Greece and Málaga
- ▶ Brazilian Jiu-Jitsu — Blue Belt (2025); competing toward the Greek National Championship
- ▶ Karate — Brown Belt; 4 years structured practice and graded competition

Seven years of high-level martial arts competition have developed elite composure under adversity, rigorous self-discipline, and a performance-first mindset — directly transferable to research environments, client delivery, and team collaboration.
